

# Tattle-Tape™ gate L1

## PROTECT YOUR INVESTMENT

Designed for use with Tattle-Tape Security Strips, Tattle-Tape gate lite is a versatile, compact solution for protecting your library from loss.

Completely safe for all magnetic media, gates detect all EM strips in any orientation and alert staff with integrated audible and visual alarms when a secured item is detected.

Tattle-Tape™ technology

Multiple mounting options: direct, baseplate, and buried cable

Compact, attractive, clear acrylic design

Extendable from 1 to 5 aisles

ADA compliant

## FEATURES & BENEFITS

Superior detection of items in any orientation

Protect materials while reducing unwanted alarms

Configurable to trigger external devices (eg: CCTV, voice alarms)

## MAXIMIZE YOUR INVESTMENT

Outstanding alone; stellar together

Every product in Bibliotheca's ecosystem is designed with unique capabilities that allow them to work together to solve libraries' most pressing problems.

Tattle-Tape gate L1 works with:

### selfCheck (Hybrid)

meet modern user self-service expectations with state-of-the-art solutions

### open+ count

overhead counting provides the most accurate patron traffic information

### open+ access

overhead counting provides the most accurate patron traffic information

### Tattle Tape strips and staff hardware
